

Offensive Zone Face-Off #1 - Circle Attack

Notes / Coaching Points

Description

The Offensive Zone Face-Off #1 - Circle Attack from [Topher Scott](#) is a great way to generate offense off of a set play and have multiple options when you gain possession. The goal is to have the center win the puck backward so that the winger that is in front of the net goes around the circle and picks it up with speed. As the winger rounds the circle they have the following options:

1. Bring the puck to the net
2. Pass to the open winger or center
3. Go around the net and look to pass or shoot
