The Offensive Zone Face-Off #2 - Quick Strike from [Topher Scott](#) is a great way to surprise the offense with a quick shot on net. As you can see in the video and diagram above, the goal is to win the draw back to the winger behind the center. From there the winger has the following options:

1. Can fire a quick shot off at the net
2. Pass to one of the defencemen for a one-timer or quick shot
